**Dr. Vincent Covello, director of the Center for Risk Communication, is one of the world's leading experts and practitioners on risk, high stress, and crisis communications.** He is the author of more than 150 articles in scientific journals and the author/editor of more than 20 books. Dr. Covello is a consultant, writer, speaker, and teacher. He is a frequent keynote speaker and has conducted communication skills training for thousands.

Dr. Covello has served as a risk, high concern, and crisis communications adviser to numerous public and private sectors organizations. For example, he has worked with over 400 of the 500 Fortune 500 companies and with over 200 government agencies, including the World Health Organization, the U.S. Department of Health and Human Services, the U.S. Environmental Protection Agency, the U.S. Department of Defense, the U.S. Centers for Disease Control and Prevention, the U.S. Nuclear Regulatory Agency, and the United Nations Scientific Committee on the Effects of Atomic Radiation. His work has been applied nationally and globally to a wide range of topics, including radiological incidents, disease outbreaks, industrial accidents, water contamination, air pollution, food safety, climate change, physician-patient communications, and organizational change. Most recently, he has worked closely with the 50 U.S. State Health Directors on their responses to questions from the media and the public on COVID-19.

Dr. Covello has received many awards for his work and has held numerous positions, including Associate Professor of Clinical Medicine and Environmental Sciences at the Columbia University School of Public Health, a program manager at the National Science Foundation, a study director at the National Academy of Sciences, President of the Society for Risk Analysis, and Vice-Chairperson of the Radiation Education, Risk Communication and Education Committee of the National Council on Radiation Protection and Measurements. Dr. Covello obtained his BA with honors and MA from Cambridge University in England and his doctorate from Columbia University.
